

CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

September 25, 1998

S. 1175

A bill to reauthorize the Delaware Water Gap National Recreation Area Citizen Advisory Commission for 10 additional years

*As ordered reported by the Senate Committee on Energy and Natural Resources
on September 23, 1998*

S. 1175 would extend for an additional 10 years the life of the Delaware Water Gap National Recreation Area Citizen Advisory Commission. The commission, which advises the National Park Service (NPS) on management of the recreation area, would otherwise expire on October 31, 1998.

CBO estimates that implementing S. 1175 would have no significant impact on the federal budget. At present, the NPS provides the advisory commission with minor technical assistance but no financial aid. Based on information obtained from the NPS, CBO expects that this arrangement would continue throughout the additional 10 years of the commission's existence.

S. 1175 would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply. The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would have no significant impact on the budgets of state, local, or tribal governments.

The CBO staff contact for this estimate is Deborah Reis. This estimate was approved by Robert A. Sunshine, Deputy Assistant Director for Budget Analysis.
